

Task 8

Cloud Account Creation

REPORT SUBMITTED BY

MALAVIKA.MS

Step 1: Visit the AWS Management Console

- Open your browser and go to the [AWS Management Console](#).

Step 2: Click on "Sign In to the Console"

- On the AWS homepage, click the **Sign In to the Console** button located in the top-right corner.

Step 3: Select Root User

- In the **Sign-In** page, select **Root user** (this is the user account you created during the signup process).

Step 4: Enter Your Email Address

- Enter the email address associated with your AWS account and click **Next**.

Step 5: Enter Your Password

- Input your password and click **Sign In**.

Step 6: Complete MFA (Optional)

- If you have **Multi-Factor Authentication (MFA)** enabled, you'll be prompted to enter the code from your MFA device.

Step 7: Access the AWS Management Console

- After successfully logging in, you'll be taken to the **AWS Management Console**, where you can manage and explore AWS Free Tier services like EC2, S3, RDS, and more.

Step 8: Logging Out

- When you're done, click on your account name (upper right corner), and select **Sign Out** to exit the session.

Including these steps I get to access and use my AWS Free Tier account effectively.
